## Quik Tip™ Series Consumables

are designed with a threaded taper lock between the contact tip and the gas diffuser that increases tip life by providing excellent heat transfer and electrical conductivity.

**Quik Tip Gas Diffusers** have positive nozzle stops to secure Quik Tip Contact Tips in a fixed position for superior repeatability and consistent, quality welds.

**Quik Tip Nozzles** are available in two styles — threaded or slip-on — with a variety of orifice diameters for optimal shielding gas coverage.

### Quik Tip HD Consumables

feature a removable nozzle cone that lowers downtime and consumable costs by allowing operators to replace only the cone, the most frequently damaged part of the nozzle, without removing and replacing the entire nozzle. Contains an increased wall thickness and insulating material to reduce the number of changeovers caused by heat degradation.

1/4 turn is all it takes to install Quik Tip Contact Tips

For superior repeatability and consistent, quality welds

## Available Parts

## Details

- Couple the Quik Tip HD Nozzle Body (N-HDQ) with a Quik Tip HD Nozzle Cone to form a complete Quik Tip HD Nozzle.
- One nozzle body and one nozzle cone required, order separately.
- Diffuser determines tip recess.

### HD Quik Tip Installation

1. Install insulator over neck.
2. Trim liner to correct dimension (see Liner Trim Guidelines on page 4).
3. Torque diffuser onto neck to approx. 12ft-lbs.
4. Insert contact tip into diffuser and lock into position with a clockwise twist.
5. Thread nozzle body onto diffuser / contact tip and tighten firmly by hand.
6. Thread nozzle cone onto nozzle body and tighten firmly by hand.

Diffusers and nozzle cones and bodies are available in packages of 10, insulators in packages of 5 and contact tips in packages of 25

## Quik Tip Conversion Series

Simplify parts management and improve performance by converting all of your MIG guns to Quik Tip Contact Tips, Diffusers and either slip-on or threaded Nozzles.

Find your MIG gun make and model on the left, then follow the chart to the right for parts needed to upgrade.
